COSMOS towel warmer/radiator

The CINIER Cosmos towel warmer radiator is made with a 1-1/4"- 3cm thick panel in Olycal stone quarried in the Pyrenées mountains mounted on a powder coated metal frame to allow wall installation.

The Olycal stone and the large surface of the CINIER radiators allow the heat output generated by the radiator to radiate in an homogeneous pattern and to remain at a temperature of 95°-113°F/35 to 45°C in normal operation for a higher comfort and safety level with a maximum of 149°C/65°F.

These unique characteristics allow the CINIER radiator to be the most comfortable heating solution available to date.

All electrical components used to make the electric version of the CINIER radiator are UL listed.

In its electric version the Cosmos towel warmer radiator can be supplied with a 24/7 programmable thermostat.

The Cosmos radiator weighs 120 lbs-54kg in the 51-1/4" tall version and 211 lbs-95kg in the 82-1/2" tall version.

Also available with 2 towel bars, 3 towel hooks & 1 or 2 oversized towel bars. The position of towel bar can be chosen by customer. Customer can also provide his own towel bars, in such case they are installed at the time of fabrication.

Electric version, 120V for the US and Canada with 650 W-2218 Btu output in the 51-1/4" version.

Hydronic version with copper coil embedded in the Olycal stone, 696 W-2375 Btu output in the 51-1/4" version.

Cosmos Towel Warmer dimensions available:
51-1/4" x 24" / 130cm x 60cm
82-1/2" x 24" / 210cm x 60cm
Heat output:
51-1/4" tall:
Elect 650W-2218Btu/ Hyd 696W-2375Btu.
82-1/2" tall:
Elect 1300W-4440Btu/ Hyd 1112W-3798Btu.

Refer to colors chart for color selection.

Thermostat for electric version:
Honeywell thermostat wall mounted, sold separately.
Please refer to Honeywell product sheet available upon request.
Thermostat for hydronic version:
Oventrop thermostat mounted on the back of the radiator
– right of left upon request.

5 years manufacturer's warranty. Made in France by Ateliers Cinier.
