

MIRROR Radiator – 2” Beveled Edge

The CINIER beveled mirror radiator is made with a 3/4”- 2cm thick panel in Olycal stone quarried in the Pyrenées mountains) covered with a 1/4” mirror beveled to 3/32” thick on the edges.

The Olycal stone and the large surface of the CINIER radiators allow the heat output generated by the radiator to radiate in an homogeneous pattern and to remain at a reasonable temperature of 150°F/65°C maximum for a higher comfort and safety level. These unique characteristics allow the CINIER radiator the most comfortable heating solution available to date. All electrical components used to make the electric version of the CINIER radiator are UL listed. The radiator is supplied with a remote control.

Beveled Mirror
51” / 130cm tall
19-5/8” / 50cm wide

The Olycal stone radiator weighs 67 lbs-30kg in the 51” tall version and 178 lbs /80kg in the 86” tall version.
Overall thickness: 3 to 3-1/4 - 75/80 mm
Height 51 to 86 - 130cm to 220cm
Width: 13-3/4 to 24 / 35cm to 60cm
Option of silver or bronze mirror.
Electric version, 230V for Europe with output from 500W à 1500W.
Hydronic version with coil in solid copper embedded in the Olycal stone.
5 years manufacturer’s warranty.

Thermostat for hydronic version:
Oventrop Thermostat mounted in the back of the radiator, see Install instructions.

Thermostat for electric version: 2 options:
1 /Thermostat mounted in the back of the radiator – right of left upon request.

Oversized towel bar for Mirror: 24”, 32” & 40” wide available

Beveled Mirror
86-5/8” / 220cm high
19-5/8” / 50cm wide.

Made in France by Ateliers Cinier
