

SAIL BOAT towel warmer radiator

The CINIER sail boat radiator is made with a 1-1/4" - 3cm thick panel in Olycal stone quarried in the Pyrenées mountains mounted on powder coated metal frame to allow wall installation.

The Olycal stone and the large surface of the CINIER radiators allow the heat output generated by the radiator to radiate in an homogeneous pattern and to remain at a reasonable temperature of 150°F/65°C maximum for a higher comfort and safety level. These unique characteristics allow the CINIER radiator the most comfortable heating solution available to date. All electrical components used to make the electric version of the CINIER radiator are UL listed. The radiator is supplied with a remote control.

The Olycal stone radiator weighs 195 lbs-88 kg in the standard version and 210 lbs-95kg in the boosted version.
Overall thickness: 3-1/8" - 80 mm.
Height 78-3/4" - 200cm.
Width: 19-3/4" - 50cm.
Sail boat mast is mounted in factory.
Electric version, 120V for the US and Canada or 220V for Europe with 1000 W-3415 Btu output in the standard 79"x 20" version and 1450 W-4952 Btu for the boosted version 79"x 20" version.
Hydronic version with coil in solid copper embedded in the Olycal stone.

Thermostat for hydronic version:

Oventrop Thermostat mounted in the back of the radiator, see Install instructions.

Thermostat for electric version options:

1 /Thermostat mounted in the back of the radiator – right of left upon request.

2/ Thermostat wall mounted.

Please refer to product tech. sheet.

Hydronic energy output:

standard 79": 892W-3046Btu

boosted 79": 1256W-4289Btu.

Refer to chart of colors for other colors available.

5 years manufacturer's warranty.

Made in France by Ateliers Cinier.

Sail boat Towel Warmer

78-3/4" / 200cm tall

20" / 50cm wide
