## PRICELIST

Since 1978, Acquadesign (Aquamass Design) has been offering a different vision of the bathroom. The bath is no longer solely intended for hygiene, it has become an object, a decoration-element, a sculpture, placed centrally in its own right in the room. The bathroom, bedroom and dressing room are evolving to a unity as a single living space, a place of well being that needs to be welcoming and functional but also comforting and sensual.

Acquadesign's products are hand-crafted and manufactured in Europe with the greatest respect for quality and bathing tradition, using noble materials such as Cristalplant®, Compolight and Polyclean. Guided by our strong corporate culture and with a lot of passion for design, we are able to offer a range of 24 bathtubs and 15 washbasins, including tailored solutions that can be customized to meet your craziest dreams and making each one of them unique objects. The 2018 collection has been created by a team of exceptional designers like Matali Crasset, Marc Sadler, Jean-Philippe Nuel, Olivier Lapidus, Xavier Lust, Stella Cadente,...
